

Aristide Jou

DevOps Engineer

+1 806 418 5055 @ aristidejou@gmail.com <https://www.linkedin.com/in/aristidejou/> Amarillo, TX

SUMMARY

Accomplished **DevOps Engineer** with extensive experience in **cloud infrastructure, CI/CD automation, and system optimization**. Adept at streamlining **software development pipelines, enhancing deployment efficiency, and bridging engineering and IT operations**. Strong expertise in **AWS, Azure, Kubernetes, Terraform, Docker, and CI/CD tools**. Proven ability to drive **high availability, security, and scalability** while reducing operational overhead. **Certified in AWS, Kubernetes, and Terraform**, ensuring adherence to best practices in DevOps implementations.

- **Expert in cloud platforms:** AWS, Azure, and Google Cloud
- **Proficient in CI/CD:** Jenkins, GitHub Actions, GitLab CI, Azure DevOps, Bitbucket
- **Infrastructure Automation:** Kubernetes, Docker, Terraform, Ansible, ArgoCD
- **Monitoring & Logging:** DataDog, Prometheus, Grafana, AWS CloudWatch, ELK stack
- **Security & Compliance:** IAM, GuardDuty, KMS, Secrets Manager
- **Scripting & Automation:** Python, Bash, PowerShell

TECHNICAL SKILLS

Cloud Platforms

AWS, Azure, GCP

CI/CD Tools

Jenkins, GitHub Actions, GitLab CI, Azure DevOps, Bitbucket

Infrastructure as Code (IaC)

Terraform, CloudFormation, Ansible

Containerization & Orchestration

Docker, Kubernetes, Rancher

Monitoring & Logging

DataDog, Prometheus, Grafana, AWS CloudWatch, ELK Stack

Security & Compliance

IAM, GuardDuty, Secrets Manager, KMS

Scripting & Automation

Python, Bash, PowerShell

Version Control

Git, GitHub, GitLab

PROFESSIONAL EXPERIENCE

DevOps Engineer

Procom | Consultant at MRC Global

2023 - Present Houston, TX

- **Develops, orchestrates, and governs** advanced **CI/CD pipelines** using **GitHub Actions, Azure CLI, Azure Key Vault, Maven, JFrog, and MuleSoft Anypoint Studio**, enhancing multi-environment management and security.
- **Designs and implements** an end-to-end **CI/CD pipeline for Salesforce**, integrating rigorous unit testing, **automating deployments**, and improving **code quality**.
- **Engineers an automated failover strategy** using **Azure Traffic Manager and Azure Front Door**, boosting system **high availability and reliability**.
- **Creates Python automation scripts** to synchronize **Salesforce records** with external datasets, reducing manual intervention and improving **data integrity**.
- **Collaborates with development teams** to proactively manage and resolve **merge conflicts**, ensuring smooth code integration and **seamless deployments**.
- **Implements infrastructure monitoring solutions** to improve system performance and identify bottlenecks proactively. **Develops Helm charts and Kubernetes manifests** to standardize deployments across multiple environments.

PROFESSIONAL EXPERIENCE

DevOps Engineer

Infosys | Consultant at PwC

📅 2021 - 2023 📍 Richardson, TX

- **Optimized CI/CD pipelines** using **Git, GitLab, SonarQube, Datadog, Opsgenie, Kubernetes, Helm, Maven, ArgoCD, Terraform, and Docker**, improving **deployment efficiency and reliability**.
- **Developed and maintained troubleshooting documentation** to standardize **issue resolution**, reducing downtime and improving operational efficiency.
- **Led monitoring and performance tracking**, ensuring optimal system reliability by utilizing **Datadog and AWS CloudWatch**.
- **Facilitated collaboration** between **development, QA, and IT operations teams**, streamlining workflows and improving **deployment processes**.
- **Managed AWS IAM policies and role-based access controls** to enhance cloud security.
- **Automated cloud resource scaling** based on traffic patterns, improving cost efficiency and performance.

DevSecOps/DevOps Engineer

IT Fusion Experts

📅 2020 - 2021 📍 Amarillo, TX

- **Integrated security tools** like **Fortify, Veracode, Snyk, SonarQube, and Checkmarx** into Jenkins pipelines, ensuring **secure software delivery**.
- **Automated infrastructure provisioning** using **Terraform** on AWS and Azure, managing services like **EC2, VPC, Lambda, and CloudWatch**.
- **Designed and implemented** serverless architecture using AWS Lambda, enabling **automated deployments** and reducing infrastructure complexity.
- **Created robust backup and disaster recovery strategies** to ensure system reliability and prevent data loss.
- **Implemented automated compliance checks** to align deployments with industry security standards.

Cloud Engineer

EK Tech Software Solution

📅 2018 - 2020 📍 Houston, TX

- **Developed** disaster recovery plans, reducing **downtime by 50%** and enhancing customer satisfaction.
- **Automated** cloud deployments, decreasing deployment time by **30%** and improving team efficiency.
- **Implemented** DevOps culture, doubling **deployment frequency** and reducing **lead times** for updates.
- **Optimized storage solutions** using **AWS S3 and Glacier** to improve data retention policies.
- **Developed CI/CD pipeline automation scripts** to reduce manual intervention and improve deployment speed.

EDUCATION

Master’s Degree, Artificial Intelligence & Machine Learning

The George Washington University

📅 2027

Master’s Degree, Computer Science

University of Yaoundé, Cameroon

📅 2002 - 2007

PROJECTS & ACHIEVEMENTS

- **Developed** an automated failover strategy improving application uptime and resilience.
- **Led** DevOps transformation, optimizing CI/CD workflows and reducing deployment times.
- **Integrated** advanced monitoring to enhance system observability and performance tracking.
- **Streamlined** cloud infrastructure provisioning with Terraform, increasing deployment efficiency.

CERTIFICATIONS & TRAINING

AWS Certified Cloud Practitioner

Certified Kubernetes Administrator (CKA)

HashiCorp Certified

PCEP – Certified Entry-Level Python Programmer

Terraform Associate

PERSONAL PROJECTS & CONTRIBUTIONS

- **Contributed** to various **DevOps and cloud automation projects** as an open-source contributor.
- **Mentored** junior engineers, sharing best practices in **CI/CD, cloud infrastructure, and automation**.
